WORK EXPERIENCE

Full stack developer

Personal Project: XPedia

Aug 2024 - Present

Full stack developer

Personal Project: XP Market

May 2024 - Jul 2024

- Created an e-commerce web application using Next.js for the user interface and Node.js with Express to handle server-side logic.
- Integrated Stripe API for payment processing and managed order statuses in the database (pending, confirmed, failed, canceled) using webhook.
- Designed and implemented a secure user authentication system.
